Interface Design Using CSS

Assignment 1

20.09.2023
—

Jane Tavares Bebik
200542588
200542588@student.georgianc.on.com

Task:

.Persona

• To create your persona, you can use any text editor, photo editor, or you can create it on paper and submit an image
• The user persona should include but not limited to:
    – The users name
    – Location
    – Age
    – Gender
    – Bio
    – The purpose of the visit to the website
    – Interests
    – Etc

Wireframe

• Your wireframe should be created digitally. Some recommended software:
    – Photoshop (This is paid)
    – GIMP (Free alternative to Photoshop)
    – Any other free image editing software (there are a lot of options!).

• The wireframe should include images and sample text.• Have fun with the design ... flex those creative muscles!• Submit a jpg copy of the design
